Product Overview

LuFill HS is VinciSmile's new upgraded product. It is an excellent self-adhesive, bulk glass ionomer cement that guarantees reliable and lasting restorations. Due to its high strength, this product performs well when used in routine clinical restorations.

Simple Operation and Excellent Performance

- Ideal particle size, easy mixing and good operating experience
- **High compressive (>200MPa) and flexural strength** assure durability, longevity, and integrity
- Durable physical properties, high acid resistance and low oral solubility
- Continuous fluoride ion release helps to prevent secondary dental cavities
- X-ray resistance

Clinical Operation

1. Prepare the tooth

2. Apply the conditioner

3. Take powder and liquid, mixing ratio 1:1

4. Mix the powder and liquid

5. Fill and trim

6. Waterproof treatment

7. Finish

Order Details

Direct restorative treatment for efficient esthetics

LuFill HS

Standard: 30g Powder+25g Liquid

Mini: 10g Powder+10g Liquid

colour: A2  A3  A3.5
